AGREEMENT MADE IN WAGE DISPUTE

Miners and Operators Agree to Negotiate New Contract Through Scale Committee.

FORMAL CHARGE BY LEWIS
Says Some Operators Are Violating Lever Act by Refusing to Reinstale Strikers.

(By United Press.)
Washington, Nov. 15.—Miners and operators reached an agreement today to negotiate a new wage scale through the scale committee of the central competitive fields.

The scale for other fields is based on the result of negotiations of the central field which comprises Indiana, Ohio, Illinois and Western Pennsylvania, the heart of the soft coal district.

John L. Lewis, acting president of the United Mine Workers of America, then formally charged that operators in many states have violated the Lever act in refusing to reinstate striking miners unless they agree to an agreement not to continue union members.

"I call on you," Mr. Chairman, he shouted, addressing Secretary of Labor Wilson, "to see that the government of the United States enforces the law."

Lewis read a telegram from the secretary and treasurer of the Alabama mine workers union, charging that hundreds of miners were released employment under the agreement reached at a conference of operators Wednesday.

Lewis said that the same methods of being employed in Colorado, West Virginia, Kentucky, Central Pennsylvania and in the Pocahontas field.

Secretary of Labor Wilson plans to negotiate for a new wage scale was rejected by operators but accepted by the miners.

Rejection by the operators brought charges of bad faith on both sides at the conference.

Indication of a conflict on the one of the agreement to be negotiated involving the question of non-union workers developed at the out of the conference and became apparent in the two group meetings which followed.

Discussion in the miners' caucus which followed the conference session hinged on the question whether operators representing both union and non-union fields would be included in the conference, and the effect.

LAW SUIT OVER COON DOG IS NOT DISMISSED

Leonard Moore Had Canine But Case Will Come to Trial Before Squire Tuesday

LORA SUTTON IS ARRESTED

Policeman Lemons this morning arrested and placed in jail, Mrs. Lora Sutton, who is charged with frauding a boarding house keeper.

The charges as preferred were by Mrs. Zelma Levi of West second street. The case will be tried this afternoon at four o'clock in the court.

The attorney representing Alonzo Sutton, who was served with return and damage papers by Leonard Moore of Franklin, appeared this morning before Squire Stech and stated that the coon dog which was the cause of the suit, had been turned to its owner. It was understood that if such was the case, the matter would be dismissed, but the plaintiff has not dismissed the case and the trial will be held on Tuesday in the squire's court, unless it is dismissed beforehand.

ATTEMPT OF YEGGS FAILURE Indiana State Library Before Opening

North Salem, Ind., Nov. 15.—An attempt was made by three men early today to rob the safe of the North Salem State Bank but, according to T. B. Davis, cashier, the thieves succeeded in getting only \$10, which was taken from an outside vault. An acetylene drill was used, but the men were frightened away before any great damage was done.

The robbery occurred between 3 and 4 o'clock, according to R. L. Profit, a baker, who was attacked by the thieves while on his way to work.

Senate Adopts Two Reservations to Treaty in Hour After Cloture Rule is Passed.

REJECTS SHANTUNG CLAUSE

Also Adopts Lodge Reservation to Safeguard Monroe Doctrine by Vote of 65 to 33.

(By United Press.)

Washington, Nov. 15.—Working under its self-imposed "gag" following adoption of the cloture rule by an overwhelming vote, the senate today forged ahead in its work of preparing a resolution of ratification of the peace treaty.

Two reservations were adopted within an hour after the cloture became effective, one being passed by acclamation only two minutes after the cloture vote was announced. One reservation provides that mandates can be employed only by action of congress. The other reservation was on domestic questions such as immigration, tariff and labor.

The new rule was taken good naturedly on both sides.

Many amusing incidents occurred. To those used to the rambling freedom of debate in the senate, the order seemed to create a new atmosphere.

The Lodge reservation to safeguard the Monroe Doctrine was adopted 65 to 33. This is the third reservation agreed to.

The Shantung reservation was taken up next. McCumber announced that on this reservation he would split the Lodge group. The committee reservation withholding assent to the Shantung provision was approved by a vote of 53 to 41.

Apparently there are many persons who are not able to discern through the fog of the senate the real issue delaying action on the treaty. Letters and telegrams to senators indicate any amount of confusion in the public mind. The seat of the trouble, of course, is the determination of some twenty or twenty-five senators to make the treaty a "mere scrap of paper."

Some of these senators are unquestionably sincerely opposed to the United States entering any international course as the treaty proposes, while others are actuated, undoubtedly, by nothing more than a desire to undo the work which the American members of the peace conference did in Paris.

The republican senators who can not be classified with the group which would kill the treaty hold divergent views as to the character of reservations that should be embodied in the resolution of ratification. The democrats for the most part have stood for an unqualified resolution of ratification. The two notable exceptions to the attitude are Senator Reed (Dem., Mo.) and Senator Gore (Dem., Okla.) Senators Shields (Dem., Tenn.) and Smith (Dem., Ga.) have favored somewhat far-reaching reservations. Now the

MORE RULES ON REINSTATEMENT

Government Provides Liberal Means For Policies Which Have Lapsed or Been Cancelled

URGED TO CONTINUE THEM

18 Months Time With Two Months Back Payments is All That is Now Asked

A series of decisions issued by the Director of the Bureau of War Risk Insurance with the approval of the Secretary of the Treasury provides more liberal conditions for reinstatement of lapsed or cancelled insurance.

The provisions of Treasury Decision No. 47, allowing eighteen months from the date of discharge for reinstatement upon payment of only two months' premiums on the amount of insurance to be reinstated, are retained. That decision is liberalized, however, by a new provision that men out of the service are permitted to reinstate by merely paying the two months' premiums without making a statement as to health at any time within three calendar months following the month of discharge.

After the three months following the date of discharge have elapsed, a statement from the applicant to the effect that he is in as good health as at the date of discharge or at the expiration of the grace period, whichever is the later date, will be required together with a written application for reinstatement and the tender of two months' premiums on the amount of insurance he wishes to reinstate.

In order to give all former service men whose insurance has lapsed or been cancelled, a fair chance to reinstate their insurance, including men who have been out of the service eighteen months or more, and who are therefore barred from reinstatement under the former ruling, a special blanket ruling is made which allows all ex-service men to reinstate their insurance before December 31, 1919, provided that each applicant is in as good health as at date of discharge or at expiration of the grace period, whichever is the later date, and so states in his application. Of course it is necessary that he tender the two months' premiums on the amount of insurance he wishes to reinstate.

Service men who reinstated their insurance by payment of all back premiums prior to July 25, 1919, when the decision requiring payment of only two months' premiums went into effect, upon written application to the Bureau may have any premiums paid in excess of two applied toward the payment of future premiums. For example, if after a policy had lapsed for six months, a man

SHIPPERS ADVISED OF NEW STANDARDS

Express Shipments Over 25 Pounds Must be Packed in Containers After Dec. 10

PAPER BOXES ARE TABOOED.

Requirements are not Complicated Because They Follow Those of Freight Service

J. A. Bruner, local agent of the American Railway Express company has sent circulars to local shippers calling attention to the changes in shipping regulations which will become effective December 10. He is advising express shippers to study the new rules, which have been approved by the United States railway administration, so that they may be able to adjust their packing methods for the forthcoming new standards.

Under the new regulations, which are embodied in what is known technically as Supplement No. 5 to Express Classification No. 26, all shipments sent by express weighing over 25 pounds, must be packed in wooden containers, or cartons of fibreboard, pulpboard, or corrugated strawboard material, or specified "test strengths". This means, according to Agent Bruner, that after December 10, packages over the 25 pound limit will not be accepted for forwarding by the American Railway Express Company, handling the express business of the entire country as agent of the railroad administration, if only paper wrapped. Nor will ordinary paper boxes, wrapped or unwrapped, be accepted as suitable protection for their heavy shipments. The regulations however, do not affect shipments under 25 pounds.

Regular shippers, Agent Bruner stated today, will not be mystified by the new regulations, as they follow very closely the packing requirements long in vogue in the freight service. The express regulations, however, allow a little more latitude in the size of carton used. The enforcement of the new rules was postponed until December 10, so that shippers would have plenty of time to prepare themselves for this change in express packing standards.

Agent Bruner expressed the opinion that these new rules will not work any hardship on shippers, but should operate distinctly in their interest, as the rules will provide additional safeguards for merchandise in transit. Moreover they will establish a uniformity of express packing rules which heretofore has been lacking. The new order does not affect the movement of food products by express, which are ordinarily shipped in crates or barrels.

Agent Bruner is able to supply

SECOND LOAN INTEREST PAID

May Now be Exchanged For Bonds With Proper Number of Coupons

LIBERTY LOAN BONDS

Rush county owners of Second Liberty loan bonds were collecting their interest today. The last coupon on the bond was taken up when the interest was collected and in order to get the remainder of the coupons for interest, the owner must surrender the bond to the bank and accept a certificate as a receipt. The bond is then sent to Washington and exchanged for a bond with the proper number of coupons. It is said the bonds were printed with only a few coupons because the government printing office was swamped during the war.

RUSHVILLE WINS THE NEXT MEETING

Spring Session of Woman's Baptist Missionary Conference Comes to This City.

FALL MEET AT SHELBYVILLE

One Hundred Delegates From 26 Churches in Flatrock Association at Session.

Rushville was decided upon as the next meeting place for the Woman's Baptist Missionary conference of the Flatrock association, which was held yesterday in Shelbyville, with several local women in attendance. The association consists of the churches located in Bartholomew, Rush, Wayne, Fayette, Decatur and Shelby counties and hold sessions twice a year, in the spring and fall. The morning program yesterday was enjoyed immensely by the ladies and at the noon hour a bountiful basket dinner was served. No business meeting for the election of officers was held as officers were installed early last spring.

Mrs. Laura Piyor of Waldron, president of the conference, had charge of the programs. Mrs. W. A. Pavy of Greensburg gave the devotional at Friday morning's session and the welcome was extended to the delegates by Mrs. David Smith of Shelbyville. The response was given by Mrs. C. J. Bunnell of Rushville. Three reports were given at the morning session by the secretary-treasurer, home director and report of foreign and literature secretaries. Musical numbers of the morning program were an organ voluntary by Miss Helen McCabe and a vocal solo by Mrs. Cecil Mount, both of Shelbyville. Miss Della Dearborn addressed the delegates preceding the basket dinner.

Prominent on the afternoon program were a duet by Mrs. H. N. Spear and Mrs. Morris Sleth and a violin solo by Miss Aletha VanNamee of Shelbyville. The Rev. Mr. Walfrid Lindstrom, who is conducting the revival services at the church in Shelbyville addressed the assemblage.

One hundred delegates attended the Shelbyville meeting and twenty-six churches in the association were represented.

DRASTIC ORDERS TO CONSERVE COAL

Public Service Commission Issues Ruling Today Restricting Use of Electricity

LIGHTLESS NIGHTS ORDER

Water Pressure Must Be Reduced Except in Case of Fire—Display Lighting Curtailed

(By United Press.)

Indianapolis, Ind., Nov. 15.—Drastic orders to curtail the use of coal was issued by the public service commission today.

They include the immediate discontinuance of the use of gas and electricity in windows and display lighting.

Lightless nights, except when moonless and on cloudy nights.

Curtailement of traction service to absolute necessity.

Lowering heating standard of water furnishing companies to 5 degrees.

Discontinuance of the water supply to fountains and other displays. Reduction of water pressure except in the case of fire.

According to the order, gas companies shall limit the use of gas to cooking, lights, domestic water heating and industrial uses.

Curtailement of service shall be governed by the general principals that in the order named the most important are:

Service involving public health; service involving public safety; service involving living necessities; service involving economic production; service involving public convenience.

"Each utility to a measure must interpret and decide upon its relation to the community served," the order says. "But it is ordered that whenever the utilities have only two weeks of supply of fuel on hand it shall discontinue furnishing the product to the patrons coming under four and five and shall show the report to the commission."

"As a result of the production of the bituminous coal being virtually stopped and the improbability of resuming of coal mines in the immediate future, the state of Indiana is rapidly approaching a coal famine which will impair public health and safety," a statement accompanying the order said.

CANVASSERS WILL WORK ON SUNDAY

Unfinished Rushville Districts Will Likely be Solicited in Red Cross Campaign

MEMBERSHIP TODAY IS 1400

The Red Cross membership in Rush county for 1920 stood at approximately 1400 today and the campaign is supposed to close tomorrow, all of which means that considerable work had to be done, in the opinion of Roll Call officials, to make the membership five thousand, and the goal which it is hoped will be realized.

One more Rushville district has been canvassed, according to reports received at headquarters, but there are still many which have never been covered by the workers. A number of solicitors have promised to canvass their territory tomorrow and report Sunday.

The fact was mentioned yesterday that no report had been received from Walker township, but it develops that 168 members were reported from the east half of the township last Tuesday and had been overlooked at headquarters, in making a report for publication.

D'ANNUNZIO IN NEW ADVENTURE

Italian Poet Accompanied by 1200 Men Lands at Zara on The Dalmatian Coast

Officials Connected With D'Annunzio Says He Intends to Make Raids in Dalmatia.

(By United Press.)

Washington, Nov. 15.—Gabriele D'Annunzio, accompanied by staff officers and a force of 1200 men, has left Fiume and landed at Zara on the Dalmatian coast, the state department announced today.

The news reached the state department today from Trieste. D'Annunzio went aboard a destroyer with his staff while 1200 troops boarded where they landed yesterday morning.

The Italian ships which were stationed at Fiume joined D'Annunzio's party.

Persons arriving at Trieste say there was great excitement in that city and that officials connected with D'Annunzio state they intend making raids throughout Dalmatia.

The population of Zara is said to have received D'Annunzio with great evidence of enthusiasm and his party was reinforced by some regular troops.

Reports from Italian newspapers in Trieste do not view the new D'Annunzio adventure with much sympathy.

FRENCH GOV'T TRIES TO REDUCE THE H.C.I.

Selling Enormous Quantities of Military Supplies at Figures Generous to France

DOING BETTER THAN THE U. S.

Washington, Nov. 15.—At a time when Attorney General Palmer and high officials of the Administration are having much to say about the effort they are making to reduce the high cost of living, it appears the French Government is taking practical steps to reduce the cost of living there by selling enormous quantities of military supplies purchased from this Government at figures, which to say the least were generous to France.

Paris cables say that sales of these stocks which were bought from our war department have been opened in a dozen leading French cities including Paris and that the purpose is to fight the high cost of living. The French Government is selling the foodstuffs and other goods at not to exceed half the usual retail prices.

AGREEMENT MADE IN WAGE DISPUTE

Continued from Page One
feet any agreement reached by the conference might have in those fields where the miners do not have contracts with the operators. Although officers of the United Mine Workers refused to make any statement following their meeting, it was learned that the plan for a nation-wide conference was favored, but before any proposal was agreed to, Secretary Wilson would be asked to make clear to the conference that the rights of organized labor are to be protected in those districts where the mining unions are not recognized by the coal companies.

The operators, however, did not look with favor on an agreement covering all fields. The Washington wage agreement for the first time, the operators asserted, fixed the same date for the expiration of contracts between miners and operators, in all parts of the country. Fear of the power this arrangement might give the workers to bring about a nation-wide strike was expressed by the operators, who indicated a desire to return to the old plan of basing all wage scale contracts on the agreement reached in the central competitive fields.

Owners of mines outside of the central competitive fields conferred before the opening of the conference, and opposition was expressed to participate in the negotiations.

Owing to the likelihood of protracted discussion on the scope of the conference before even the demands of the miners were brought into issue, many on both sides predicted that the sessions might continue for several weeks.

4 ILL OF PTOMAINE POISON AT MANILLA

Prof. and Mrs. Vernon and Two Others are Recovering From Effects of Poisoning

ATE GOV'T CANNED FOOD

Prof. and Mrs. Vernon, of Manila, are in a serious condition, suffering from ptomaine poisoning, resulting from eating canned food purchased from the government. Two of Prof. Vernon's brothers were also present for supper Thursday evening and are also suffering from the poisoning.

Shortly after eating supper the four became critically ill and Dr. Emerson Barnum, of Manila, was called and remained at their bedside throughout the night. Today they were reported as better and it is thought that all will soon recover. Prof. Vernon is principal of the Manila high school.

This is the first time ptomaine poisoning has resulted from the large amount of government foods purchased here some time ago. It is thought that the food eaten Thursday evening, which caused the poisoning of the four, had become exposed to the air before it was served.

BASKETBALL TEAM TO USE PROCEEDS

Freeman Hammond Co. Will Give Concert at New Salem Auditorium Tuesday Night

NOT ON THE LYCEUM COURSE

The Freeman Hammond company, an attraction of unusual merit, will appear for a concert in the auditorium of the New Salem school on Tuesday evening. The proceeds from the evening will go to the basketball team of the New Salem high school, which will use the money for purchasing new uniforms.

The attraction has an unusual appeal and many original features. Mr. Hammond has made for himself splendid reputation during the past few seasons. Those who have seen his fine characterizations could hardly imagine that so young a man could depict life so faithfully. He has a number of new sketches and characterizations and with other members of the company will produce a little playlet.

Miss Bessie Banks is an actress and tells wonderful child stories, while her cornet solos are said to be delightful. The soprano, Miss Phelps, has a voice of good range and power, and a most delightful manner of presenting her songs. She acts her part in the playlet with a charm and distinction.

The entertainment is from the same lyceum bureau which provides the winter course, but should not be confused as a regular number of the course. The tickets issued for the winter course will not be accepted, as this is a special attraction and the money taken in will be used by the basketball team.

SCHOOL CHILDREN ALL GET PHYSICAL TESTS

Examinations May be Completed Next Week and Cards Showing Defects Sent to Parents

CHILDREN'S BOARD TO HELP

The physical examination of school children, which is being conducted by Dr. Lowell M. Green and the visiting nurse, Miss Ruth Gronier, and three assistants, will probably be completed next week. Forty-three were given the tests at the Graham Annex yesterday morning and two more days will be required to complete the examinations at this building. The Havens school children have already been examined and the last building to be visited will be the Jackson school.

Dr. Green is finding surprisingly few serious defects among the children, though it is common to find minor ones which need correction, the most common of which is lack of a good smallpox vaccination scar.

Each child's examination is marked up on a card which is sent to the parents. Where the parents are not financially able to give the child the proper treatment, the county children's board of guardians will attempt to do it with funds which they have for that purpose. This fund is being increased by the Tri Kappa sorority which is conducting a sacrifice club for defective children.

Dr. Green and Miss Gronier are being assisted by Miss Charlotte Norris, Miss Teo Holden and T. M. Green.

J. WARREN KERRIGAN in "The Drifters"

A five part dramatic narrative of life in the Alaskan wilds. Three Alaskan prospectors find a girl lying unconscious in the snow. Her reasoning has wandered. She remembers only that she is looking for someone. Each of the four has sought that far-away country for something different, but fate has willed that these drifters shall come together. A deftly woven plot, skillfully enacted and thrillingly told constitute a tremendous drama of the wild northwest.

Timely Service to Nation

One noticeable feature of the editorial columns of the past week has been a decided tendency to cast the failings of the national administration upon the screen of publicity. More than once disruptive, socialistic leanings have been imputed to certain of those high in the government councils and the Lancaster (Pa.) Daily New Era becomes specific when it says:

"For several months past the Federal Trade Commission has been flooding the country with sensational starting and alarming reports about the operations of the meat packers."

"But it also appears that, while the Federal Trade Commission was investigating the packers, Senator Watson was investigating the Federal Trade Commission, and he has given the result of his investigation to the Senate. Now we are not surprised at the character of the reports on the packers. The Trade Commission is a nest of anarchists, of the most extreme and radical Socialists, of pro-German agitators and propagandists, of admirers of Lenin and Trotsky, of bitter opponents of democracy and the American government of revolutionists and avowed exponents and advocates of Bolshevism."

Also commenting upon the charges recently made by Senator Watson, the Ogden (Utah) Examiner believes that these charges are "worthy of the deepest investigation," and says:

"The senator cited several of these socialists of radical type, including Stuart Chase, who had general charge of the packers' investigation according to Watson. The senator says that he is known as an exponent of socialism and that he is president and organizer of the Fabian club of Chicago—a society founded for the express purpose of furthering the doctrine of socialism." The Examiner adds: "Another prominent man of the department forces might have been cited for Prof. Herron, who has been variously honored in recent months, is an exponent of socialism and has been considered of most radical type."

The Chicago Daily Tribune sees in the Watson expose a subject which is deserving of deep thought upon the part of the American people. It declares that "the internationalism of the administration has attacked our historic foreign policies and tradition." "The history of the trade commission," it says, "is significant of the tendency of the administration," and, in an editorial headed "Revolutionists Representing the Government," states that "Senator Watson has done the nation a most timely service by undertaking an inquiry into the employment of revolutionary radicals in the public

We Have Confidence

All the world knows that America is in a chaotic condition, but not all of the world believes that America has the brains, the will and the determination to bring sanity out of bedlam.

We, however, have confidence that such will be the final outcome of the present era of brimstone and brutality.

We believe the government at Washington and the congress of chosen representatives of the people, will arise to the patriotic heights necessary to restore order and fairness and justice throughout this land of a self governed people.

We believe that the great mass of loyal and unswerving support which is necessary in this hour of national government and the congress that the American people will give to the travail.

We believe that every true American will exert his utmost to restore our country to that condition of tranquility which prevailed before this wave of agitation and unrest and profiteering engulfed us.

Regardless of the present deplorable conditions, we have confidence in America and American institutions.

An Italian count, lately defunct, bequeathed \$10,000 to the city of Providence, R. I., the interest on which is to be presented by the mayor each year to the young lady "of the common people" who most deserves it as a reward for her "conduct and family virtues". He was some count, we think—but will the maidens of Providence admit that they are "common people" in return for the paltry sum of \$600 per annum? Watch the grand rush!

American millionaires make their money in this country and blow it in over in Europe. European aristocrats pauperize themselves at home and marry American money to recuperate. The pauper gets something for nothing, and the plutocrat gets nothing for something.

Having saved Europe from itself, America will again come to the front and save it from starvation. They always come to the fellow who has and is willing to give.

Booze is nozing around at \$40.00 a gallon with millions of seekers and mighty few finders. Some lid, that!

Take life as it comes and keep moving. It will not hustle for you.

URGES PEOPLE TO FIGHT CATARRH WITH SIMPLE HOME MADE REMEDY

Can Make Pint at Home and Costs Little, Says Leading Druggist of Covington, Ky., Who Has Made Special Study of Catarrh.

Says: Inflamed Nostrils Invite Influenza

People who say that catarrh is a disease not to be taken seriously are harshly rebuked by a Kentucky druggist who has for years been much interested in the growth of this loathsome, yet altogether too common disease.

He claims that the sore, tender, inflamed membrane of the nostrils and throat is a prolific breeding ground for germs—not only the germs of Influenza, but many other kinds as well.

If people would only stop experimenting for two weeks and try a simple remedy made of Mentholized Arcline mixed with enough boiled water to make a full pint, half of the catarrh in this country would be abolished. It's really no joke for people

who don't know about this simple recipe to be constantly sniffing and snuffing, blowing and hawking, when all these obnoxious symptoms as well as the foul discharge can be made to disappear in a few days.

Ask for three-quarters of an ounce of Mentholized Arcline—that's all you need and after you have mixed it with enough boiled water to make a pint, gargle the throat twice daily and snuff or spray some up the nostrils, as directed.

The tender nostrils will soon lose their soreness, heal up, and be clean and healthy.

Important Reminder: Just as soon as anyone in the family gets a cold in the head, check it at once with this same medicine.

RUSHVILLE HIGH LOSES TWO GAMES

Spiceland Academy Runs Away With Local Quintet, 23 to 13, Excelling in Basket Shooting

R. H. S. MEN "LOSE THEIR EYE"

At Least Forty Shots For Field Goals Are Failures—Seconds Are Also Defeated

The Rushville high school lost both games last night to the Spiceland Academy, the second team losing by the score of 22 to 12, and the first team by the score of 23 to 13. The second team was outclassed but the first team was unable to locate the inside of the basket, after showing excellent floor work and making many long shots which would only roll around the basket and fall off.

Spiceland started in the game by scoring in the first minute, and soon had nine points before the locals had any. Then the locals held them in the first half with the nine point lead, and brought in five points for themselves, making the score at the end of the first half, 9 to 5.

It could easily be seen that Rushville displayed the best team work as they had the ball in their possession much more than Spiceland. Rushville had about 40 shots at the goal, but was unable to put the ball through the net. The Spiceland five were good goal shooters and made several baskets which looked impossible.

It is also generally conceded that the local team played out of luck last night, as the ball would hit the rim of the basket, or roll around the top, only to fall on the outside instead of the inside.

Headlee and Atkins played their usual fast game, and Miller added much pep to the team, making one sensational shot soon after the opening of the second half. Frazier, as back guard, was always there when it came to stopping plays, and the weakest place on the team last night was the other forward, Moore, who at no time in the game showed any form and was a disappointment to the fans. The coach was censured by the fans for not putting a substitute in to replace him.

However, before the close of the game Gray was put in for Moore, and soon made a field goal. Headlee made several good shots, and one in particular was from the middle of the floor. All of the points scored by Rushville last night were well earned. The point getters for Spiceland were Pearson, at forward and Reece at center. In the last half Pearson got three goals in quick succession, and also in this period of the game Reece landed three goals. The Spiceland team were much heavier than Rushville, and taller, but played a good clean game, and were by far the best team that has played here this year. No doubt but that they have a good chance again this year at winning the district honors at Newcastle.

Every team is bound to have a few nights off form, and last night it was Rushville's turn. In two weeks the locals will play at Spiceland, and perhaps then the luck will be changed and a different score, with the big points on the Rushville side, will prevail.

Not much difficulty is expected in the game next Friday night, when Moscow plays here. However if the hooey is still on the locals, Moscow might win the game.

The score and summary: Rushville (13) Spiceland (23) Miller -----F----- Pearson Moore, Gray -----F----- Myers Headlee -----C----- Reece Atkins -----G----- Stafford, Poer Frazier -----G----- Chew Field goals, Miller, Gray, Headlee 3, Atkins, Pearson 4, Myers, Reece 4, Chew; foul goals—Atkins, Reece 3.

Spiceland 22; Rushville 12

The second team from the local high school suffered their first defeat of the season last night when the second team from Spiceland overwhelmed them in the last half and piled up a score of 22 to 12. In the first half the local team maintained the lead by the score of 11 to 7, and in the final period, Spiceland

W. W. Wilcox Discusses Case in Which State Supreme Court Went Against Him

CONTROVERSY OVER ONE CENT

W. W. Wilcox of this city, though the supreme court decided against him, believes that he was right in refusing to pay E. O. Arbuckle of this city, I. & C. conductor, one cent when the conductor demanded it as the difference between the cash fare and ticket fare, which he paid for part of the way to Indianapolis.

Mr. Wilcox, who then lived at Gwynnville, explains his side of the story this way: There being no agent at Gwynnville and he having always understood that passengers should buy tickets wherever possible, Mr. Wilcox says that on the day in question he called the ticket agent at Morristown and asked him to have a ticket to Indianapolis ready for him when a certain car reached the station. Mr. Wilcox declares that he paid cash fare from Gwynnville to Morristown, bought his ticket there and gave it to the conductor for the remainder of the trip to Indianapolis. It was then that Conductor Arbuckle demanded another cent, which Mr. Wilcox refused to pay and was put off the car. He filed a charge of assault and battery against the conductor and won in a justice of peace court and in circuit court at Shelbyville, but the state supreme court went against him.

land held them to only one point, which was made ten seconds before the whistle blew.

The score and summary of this game was as follows: Spiceland (22) Rushville (12) Wright -----F----- Casady Strickler -----F----- Bell Casey -----C----- Phillips Jarrett -----G----- Martin Lacey -----G----- Davis

LICENSE BOOK ALL USED

First Marriage Application Issued From It Jan. 8, 1916

A marriage license was issued yesterday afternoon to Donald Ruby and Beatrice Hunt, daughter of Mr. and Mrs. Elmer Hunt of this county. This was the last license on the book and a new record book today was placed in the office. The old book contained over 580 licenses, and was begun Jan. 8, 1916, when the first license was issued from it. The new book has no variations in it, but the type is smaller in some places, and contains 580 blank applications. At the rate they have been selling in the last few weeks, the new book won't last long, according to Otto Moore, deputy clerk.

GUARANTEE

WHAT IT MEANS

The lawful meaning of the word "guarantee" is this: The guarantor and the person receiving the guarantee become parties to a contract. The third party to this contract is the article guaranteed. When the Spreader is guaranteed for five years against all flaws and defects, etc., in workmanship or material or construction, this MEANS something and becomes a real PART of this modern machine.

Our guarantee is issued on a special form provided by the factory and goes to the factory for official signature and to be made a record of. This is REAL protection.

I don't want to sell you the "RUSHVILLE SPECIAL" Spreader because of the guarantee alone, but this guarantee should show you that you are protected and that the builders know what they can do and are prepared to do it.

The reason the "RUSHVILLE SPECIAL" Spreader can be guaranteed in this manner is because of the style of general construction and because the factory that builds it makes every part and piece that goes into it. This factory is not an assembling institution, but a real manufacturing plant.

We want to again emphasize the fact that this spreader is selling as cheap and perhaps more cheaply today than it will be in many, many months to come. Don't therefore, delay your purchase. Buy it now—immediately. Take advantage of what it can do for you. Don't put off this good thing. It won't pay. Come in and see the "RUSHVILLE SPECIAL" Spreader.

Nov. 17 to 22 will be Dr. Scholl's Demonstration Week

Fred McGinnis, A Graduate Practipedist

Will Demonstrate Foot Comfort Here

This store will signalize this nation-wide week of foot comfort demonstration by Grand Demonstration conducted by our graduate Practipedist. The scientific methods of relieving foot discomforts which he learned in the course given by the

American School of Practipedics

of which he is a graduate, will be put to practical use in correcting the causes of foot suffering in our patrons. YOU are invited to come in and let him carefully

Examine Your Feet and Advise You Free

No matter whether your trouble is severe or trivial, whether it is a mere corn or a badly fallen arch, the Practipedist can and will show you how it can be readily and quickly relieved. He uses the same methods which were originated and so successfully used by

Dr. Wm. M. Scholl

the eminent authority, in his work as a foot specialist.

Allowing our Practipedist to examine your feet will not obligate you in the slightest. He will merely determine what the cause of your trouble is, give you advice on foot care and show you how you can, when ready to do so, have that trouble corrected and gain

Real Foot Comfort.

BODINE'S NEW ERA

Society

Miss Henrietta Coleman will entertain with a luncheon-breakfast tomorrow morning at her home in East Sixth street for her house guest, Miss Agnes Hodgkin of Indianapolis.

Miss Helen Scudder will entertain with a dinner party this evening complimentary to Miss Frances Frazee and Jay Drum of Miles City, Montana, whose marriage will take place next week.

The W. W. club met at the home of Miss Louise Pitman last evening, Miss Beauty of the high school faculty being one of the guests. A six o'clock dinner was served and the guests formed a theater party afterwards.

There will be a pitch-in supper Thursday evening, Nov. 20 at the L. O. O. F. hall to which all Rebekahs and their families are invited. All are urged to take their baskets well filled. Supper will be served as near seven o'clock as possible.

The members of the P. A. C. club of Falmouth delightfully surprised Mrs. Fred Posey, a recent bride, Thursday afternoon at the home of her parents, Mr. and Mrs. J. M. McConnell in Falmouth. After an afternoon over various kinds of needlework, a delicious luncheon was served to those present.

Mrs. Ida Shortridge and daughter, Miss Stella entertained yesterday at a prettily appointed course dinner party the following guests: Mrs. Henry Knotts and daughter, Miss Bessie, Mrs. Nora Stuckey, Mrs. Minnie Gwinnup and Mrs. Dora of Glenwood. The center of the table was beautifully decorated with a large bouquet of chrysanthemums.

Mr. and Mrs. Ed Moore entertained with a beautiful two course six o'clock dinner last evening at their home south of the city, honoring Mr. and Mrs. Loren Martin, who were recently married. Green and pink was the color scheme used in the decorations of the table, a large bouquet of pink chrysanthemums forming the center piece for the table. Covers were laid for twelve guests. The remainder of the evening was spent with cards and dancing.

Last evening Mr. and Mrs. Wilbur Piper of Fairview entertained a number of their friends with a seven o'clock dinner party. The centerpiece for the table was a bouquet of fall flowers and covers were laid for Mr. and Mrs. Robert Longfellow, Forrest Jones, Mr. and Mrs. Walter

Heeb and daughter Elsie, Mr. and Mrs. John Smelser and son Glen, Miss Eva Bowles, Mr. and Mrs. J. M. Hittle and son Fred, Mr. and Mrs. William Jackson, Dr. and Mrs. Herman Smelser of Connorsville, and Mr. and Mrs. George Poince of Raleigh. After the repast the evening was enjoyed with games, contests and music.

Miss Mabel Hankins entertained with a miscellaneous shower last evening at her home in West Second street, honoring Mr. and Mrs. George Ruble, who were recently married. Mrs. Ruble was formerly Miss Sarah Gibbs. The guests present were Mr. and Mrs. L. C. Sharp and family, Mr. and Mrs. A. Trennepohl, Mrs. E. Trennepohl, Mr. and Mrs. E. J. Hankins and family, Mrs. Gusta Gibbs and sons, Mr. and Mrs. George Ruble, the Misses Edythe Osborn, Dorothy Matlock, Mildred Madden, Naomi Shaw, Geraldine Rainey, Mary Enos, Frances Flodder, Carrie Alexander, Aline Shaw, Flora Bell Gilson, Howard Higgs and Paul Tyler. Refreshments were served late in the evening by the hostess.

A beautiful four course luncheon and shower was given at the home of Miss Mary Jane Carr in North Perkins street last evening, honoring Miss Ruth Innis and Miss Frances Frazee, bride-elects. The centerpiece for the table was a French basket of all flowers and at each end was a miniature bride, which marked the places for the honored guests. The cards, which marked the places for twenty guests, and the ice cream were in the form of wedding slippers. At the close of the luncheon a large basket was brought into the dining room filled with presents for both Miss Frazee and Miss Innis. Mrs. George Dehority of Elwood was the only out-of-town guest present.

**Biography Of
A Sweaterette**

By MARGARET RHODE
(Written for United Press.)
Sweet in her sweaterette.
Is Sue today.
Jack Frost can't get her yet.
(By Dan Cupid, may, 1919.)
New York, Nov. 15.—When is a sweater not a sweater? The answer is the same as the query "when is a scarf not a scarf?" Of course everybody knows that that is when it is a sweaterette and there you are rather there it is. It's all beautifully clear and simple provided you know just what a sweaterette is, but that's a long story—in fact quite a sentimental romance.

You see last season when sweaters were beginning to get a bit passe from long and constant wear and were trying all sorts of things to keep themselves smart and up-to-date such as resorting to ripply ruffles around their waists and elbow sleeves and reducing themselves to mere skeletons of flit mesh a dashing young Scotch scarf just back from overseas with a military flyer fell desperately in love with a fluffy pink and white feeling wool sweater and proposed matrimony.

Realizing that her career as a pampered pet of fashion was becoming a bit precarious and that Hymen and the Scotch scarf offered a comfortable and happy solution, she pinkly cooed she was willing, only of course she pronounced it "woolen," and fell into his soft embrace. They were married next day and in the due course of events they had the darlings little garment you ever saw. It had its father's long graceful scarflike lines.

Famous pain and ache Liniment,
Kept handy, brings gratifying relief

RHEUMATIC twinges ease up soon. So do stiff joints, lame back, neuralgia, overtaxed muscles, and those pains from weather exposure, too—they don't fight long against the counter-irritant Sloan's Liniment produces.

Keep this old family friend handy for instant use—a little penetrates without rubbing, leaving no skin stains, muzz, or clogged pores. You ought to keep a bottle handy always.

All druggists. Three sizes—35c., 70c., \$1.40.

and its mother's snug form-fitting girdle and handy pockets set on the front ends of the scarf. Yet with all their best features it still had a complete and original individuality of its own.

Naturally the proud parents were just crazy about their attractive little first born. They christened her "Sweaterette" and rapturously exhibited her to their admiring friends. All these bachelor and maiden scarfs and sweater friends immediately became so enamored with the little offspring that they all went away and got married just so they could have a little Sweaterette of their own.

Now the first little sweaterette has so many little brothers and sisters and cousins and aunts that a greedy feminine public can have an unlimited choice of colorings, yarns and combinations to take their fastidious pick from. As an early fall wrap and a sport wrap of all sorts the little sweaterette promises to break all records. It has its parental ancestors, the scarf and sweater, backed clear off the fashion boards, as is the usual way of the younger generation towards their elders.

In Shetland wool, brushed or unbrushed, Angora or just plain every day yarns the sweaterette is snug and practical and stunning especially when developed in two colors. The scarf proper of some soft putty or grey shade and the border of rose, blue, yellow, green or purple and the belt, pockets and fringe finishing the scarf ends of the same tone as the border. In plaid or stripe effects the sweaterette is also smart. As a chic skating garment the sweaterette is particularly so if you want to get a skate on be sure and get a sweaterette on, too.

CATTLE TREATING ADVISED

Many Contract Hemorrhagic Septicemia, it is Reported.

At this time of the year a great many cattle are being shipped from the yards for feeding purposes. Many of these animals contract hemorrhagic septicemia, stock yard disease, or shipping fever as the disease is probably better known. L. E. Northrup, state veterinarian, is advising that cattle bought from the yards be treated for this disease immediately on arrival at the farm. The treatment is inexpensive, quite reliable, and may save heavy losses. He regards the treatment as quite cheap insurance, according to a letter sent out to feeders recently.

PROFITEERS CONVICTED

New York, Nov. 15.—The first sugar profiteering conviction in this federal district was obtained yesterday. Julius and Charles Roth, commission merchants, were found guilty by a jury of selling at 22½ cents a pound sugar bought at 9½ cents a pound.

This Building Pays Dividends

Good farmers found out long ago that the better livestock is housed the more it pays for its keep. A good barn, whether it be for dairy cows, mixed stock, grain storage, or general purposes, is a farm structure that never fails to pay dividends on the investment.

Build the Barn You Need

The barn shown in this cut is a big, complete, thoroughly modern structure. We have blue prints and working plans for it, and can give you complete and accurate cost estimates. If this building is too large for your needs, we have others, smaller in size, that may just suit you—and we have the plans for them, too.

WE GIVE THE VALUES & GET THE BUSINESS

What's all this talk about \$100 Suits and Overcoats?

—We haven't any. Some of the talk heard these days reminds us of Mark Twain's famous remark: "The reports of my death have been greatly exaggerated."

—We advise the average man to pay from \$40.00 to \$55.00 for his Winter Suit or Overcoat—this for economy sake. But we want to say right here that a good Suit or Overcoat—one with style and merit—can be bought from us at \$25.00 and \$30.00. Right now we have a Big Drive on.

Young Fellers' Club Suits and Overcoats at \$35

Hundreds of others in extreme and conservative cuts at \$40, \$45, \$47.50, \$50, \$55, \$60 and \$65.

The prices on our furnishings are based on a volume of sales—"Quick Turn Over" and "Small Profits." Mr. Knecht who has just returned from the Eastern New York Markets advises Xmas buyers to shop early. For he doubts the ability to fill the demands this season.

You'll be happy to give him a pair of our Tan and Gray Cape Leather Gloves at \$2.00 up.

Also Jersey, Wool and Mocha Gloves at 50c up.

Values like these don't make the dollar bill look like such a faker.

A marvelous range of Young Men's Silk Neckwear at 75c up.

Never in our history have we offered a finer value.

The increase in sales proves it.

Silk, Madras and Crepe De Chine Shirts of distinction and service.

Crepe De Chine Shirts at \$10.00 and up.

Tub Silk Shirts, good quality at \$7.50 and up.

Madras Shirts \$1.50 up.

IF WANTED! Every purchase will be laid aside until Xmas and put up nicely in a Xmas box.

BELIEVED NITTI WILL BE ELECTED

Predicted Government Will Secure Majority at General Election Held Tomorrow in Italy.

VOTE BY NEW ELECTION LAWS

One Man, One Vote, is Rule in Italy and no Candidate May Stand for 2 Constituencies

Rome, Nov. 15.—While Premier Nitti continues to be subjected to some of the most virulent personal attacks in Italian political history, it is confidently predicted by his supporters that the government will secure a substantial majority at the general elections held tomorrow all over Italy.

The cynics point out Nitti is in power, and that no Italian government in power while an election was held has been defeated at the polls since 1848. If he is defeated, they say, it will be his own fault for tinkering with the electoral law.

For Italy will vote under Nitti's new election law, which is aimed at reducing the power of the political wirepullers and giving the people an extended and more equal franchise. Although woman suffrage was adopted by the last chamber, women will not vote this time as the new law specifically postpones their participation in elections until the next dissolution of parliament, but the dissolution will be considerably enlarged, for in addition to granting the vote to all Italians over 21 years of age (except soldiers actually under arms) there is a special provision extending the franchise on this occasion to all citizens who have performed service in the army or navy, regardless of the age limit.

There are still 508 deputies to be elected, as the redeemed provinces are not entitled to representation until the ratification of the treaties with Germany and Austria permits the formal decree of annexation. Later there may be a special election for their benefit after their representation strength has been determined. The constituencies have been

re-arranged and enlarged. Instead of 135 electoral districts as provided for by the law of 1882, there will be fifty-four—for the same number of deputies. Of these Milan is the largest, returning 20 deputies. Turin and the Emilia districts have 19 each; Genoa and Naples 17; Rome (which only had five under the old law) 15; Florence 14.

Alessandria and Caserta 13; (Giotti's constituency) Novara, Udine, Bari and Palermo, 12 apiece; Como and Camponasso, 11; and Siena, Perugia, (Salerno, Lecce, Potenza Nitti's constituency) and Catania 10 each. The smallest districts are Mantua, Cremona, Teramo, Caltanissetta, Trapani, and Sassari in Sardinia, with five members each.

One man, one vote, is the rule in Italy, and no candidate may stand for two constituencies—if elected in two he must decide for which he desires to sit within eight days of the Chamber declaring his election valid. The minimum age for a deputy is 30, although Signor Salandri introduced a resolution which the last Chamber was unable to deal with before the dissolution, making the limit 25.

Political experts declare that the principal ones to benefit from the new system will be the extreme parties, the Catholics or clericals in the agricultural south, and the socialists in the industrial north, both of which are highly organized. The old liberals are expected to lose ground, while the young nationalist or imperialist party which had only three or four deputies in the old chamber will doubtless increase its representation.

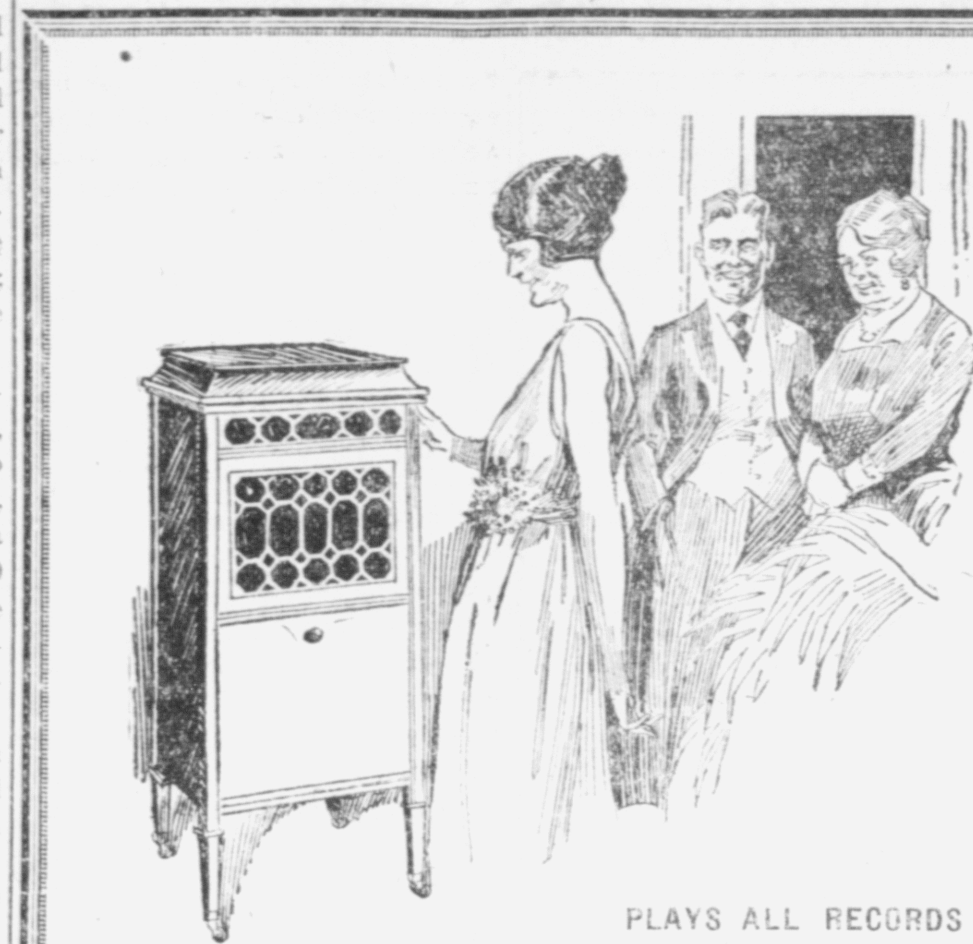

France continues to be almost the main battleground.

and seeking freedom from memory in brandy. His companions are Mears and MacLaren, one hiding from the law and the other, bothered from the law and the other, bothered neither by past or present seeks honestly won gold in the rich Alaskan fields.

Into this winter-bound region comes a girl. A great sorrow has robbed the girl of her mind, but it must have been some large purpose that has carried her mindless body through the winter snows. How she remembers who was seeking and finds him one of the three drifters, and how the man seeking to forget is given something to remember make of "The Drifters," an original story by Kenneth B. Clark, an absorbing and unusual romance.

Lois Wilson, without whom no Kerrigan picture is complete, is very sympathetic in the role of the girl, Casson Ferguson in a jolly juvenile. William Conklin is as mean as any villain should be, and Walter Perry gives one of those character portrayals he is famous for, while Kerrigan's role is both sympathetic and vigorous.

James J. Corbett will be at the Mystic Monday in "The Elevator Mystery," the sixth episode of the serial, "The Midnight Man." An L. Ko comedy, "Nellie's Naughty Boarder," and Universal current news also will be shown.

Mae Marsh at Princess Tonight

Mae Marsh's circle of admirers will delight in her latest Goldwyn offering, "Hidden Fires," which comes to the Princess Theatre, tonight. The new production brings out many new phases of Miss Marsh's remarkable gifts, for the dual role she essays is a distinct departure from anything "the whim girl of the screen" has yet attempted.

The striking resemblance Peggy Murray (Mae Marsh) a hotel newsstand girl, bears to the missing daughter of a woman of wealth leads to Peggy's taking her place in order to restore the health of the grieving mother. The change forces Peggy into a series of complications, the most serious of which is her meeting

with the man who betrayed the missing girl and who comes to Peggy to apologize for casting her off. After months of posing as another the former newsgirl is speechless when she discovers the girl in whose place she is masquerading in a hovel in the slums almost dead of a broken heart. Peggy nurses her back to health and sets out to find the man responsible for her plight.

She is rewarded after many days' search and brings him to the bedside of the once beautiful society girl and makes it plain to him that marriage, not apologies, will right the wrong done her. He consents to an immediate wedding and Peggy leaves to take up her old place at the newsstand. Love comes to her, too, when she meets her Prince Charming, a man who loved her while she was a masquerader and whose love she spurned because of the lie she was living.

—Mr. and Mrs. Arthur Wagoner of Shelbyville will be the guests of Miss Helen Seudder this evening.

AGREEMENT MADE IN WAGE DISPUTE

Miners and Operators Agree to Negotiate New Contract Through Scale Committee.

FORMAL CHARGE BY LEWIS

Alleges Some Operators Are Violating
Lever Act by Refusing to
Reinstate Strikers.

(By United Press.)

Washington, Nov. 15.—Miners and operators reached an agreement today to negotiate a new wage scale through the scale committee of the central competitive fields.

The scale for other fields is based on the result of negotiations of the central field which comprises Indiana, Ohio, Illinois and Western Pennsylvania, the heart of the soft coal district.

John L. Lewis, acting president of the United Mine Workers of America, then formally charged that operators in many states have violated the Lever act in refusing to reinstate striking miners unless they agree to an agreement not to continue union members.

"I call on you," Mr. Chairman, he shouted, addressing Secretary of Labor Wilson, "to see that the government of the United States enforces the law."

Lewis read a telegram from the secretary and treasurer of the Alabama mine workers union, charging that hundreds of miners were re-employed under the agreement reached at a conference of operators Wednesday.

Lewis said that the same methods being employed in Colorado, West Virginia, Kentucky, Central Pennsylvania and in the Pocahontas Field.

Secretary of Labor Wilson plans negotiation for a new wage scale was rejected by operators but accepted by the miners.

Rejection by the operators brought charges of bad faith on both sides at the conference.

Indication of a conflict on the part of the agreement to be negotiated involving the question of non-union workers developed at the out-look of the conference and became apparent in the two group meetings, which followed.

Discussion in the miners' caucus which followed the conference session hinged on the question whether operators representing both union and non-union fields would be included in the conference, and the effect.

Squire Tuesday

LORA SUTTON IS ARRESTED

Policeman Lemons this morning arrested and placed in jail, Mrs. Lora Sutton, who is charged with fraudulently boarding house keeping. The charges as preferred were by Mrs. Zelma Levi of West second street. The case will be tried this afternoon at four o'clock in district court.

The attorney representing Alonzo Sutton, who was served with restraining and damage papers by Leonard Moore of Franklin, appeared this morning before Squire Stech and stated that the coon dog which was the cause of the suit, had been returned to its owner. It was understood that if such was the case, the matter would be dismissed, but the plaintiff has not dismissed the case, and the trial will be held on Tuesday in the squire's court, unless it is dismissed beforehand.

ATTEMPT OF YEGGS FAILURE

Indiana State Library Before Opening
Vandalism at Salem Bank

North Salem, Ind., Nov. 15.—An attempt was made by three men early today to rob the safe of the North Salem State Bank, but, according to T. B. The robbery occurred between 3 and 4 o'clock, according to R. L. Proffit, a baker, who was attacked by the thieves while on his way to work.

Senate Adopts Two Reservations to
Treaty in Hour After Closure
Rule is Passed.

REJECTS SHANTUNG CLAUSE

Also Adopts Lodge Reservation to
Safeguard Monroe Doctrine by
Vote of 65 to 33.

(By United Press.)

Washington, Nov. 15.—Working under its self-imposed "gag" following adoption of the cloture rule by an overwhelming vote, the senate today forged ahead in its work of preparing a resolution of ratification of the peace treaty.

Two reservations were adopted within an hour after the cloture became effective, one being passed by acclamation only two minutes after the cloture vote was announced. One reservation provides that mandates can be employed only by action of congress. The other reservation was on domestic questions such as immigration, tariff and labor.

The new rule was taken good naturedly on both sides.

Many amusing incidents occurred. To those used to the rambling freedom of debate in the senate, the order seemed to create a new atmosphere.

The Lodge reservation to safeguard the Monroe Doctrine was adopted 65 to 33. This is the third reservation agreed to.

The Shantung reservation was taken up next. McCumber announced that on this reservation he would split the Lodge group. The committee reservation withholding assent to the Shantung provision was approved by a vote of 53 to 41.

Apparently there are many persons who are not able to discern through the fog of the senate the real issue delaying action on the treaty. Letters and telegrams to senators indicate any amount of confusion in the public mind. The seat of the trouble, of course, is the determination of some twenty or twenty-five senators to make the treaty a "mere scrap of paper."

Some of these senators are unquestionably sincerely opposed to the United States entering any international course as the treaty proposes, while others are actuated, undoubtedly, by nothing more than a desire to undo the work which the American members of the peace conference did in Paris.

The republican senators who can not be classified with the group which would kill the treaty hold divergent views as to the character of reservations that should be embodied in the resolution of ratification. The democrats for the most part have stood for an unqualified resolution of ratification. The two notable exceptions to the attitude are Senator Reed (Dem., Mo.) and Senator Gore (Dem., Okla.). Senators Shields (Dem., Tenn.) and Smith (Dem., Ga.) have favored somewhat far-reaching reservations. Now the

MORE RULES ON REINSTATEMENT

Government Provides Liberal Means
For Policies Which Have Lapsed
or Been Cancelled

URGED TO CONTINUE THEM

18 Months Time With Two-Months
Back Payments is All That is
Now Asked

A series of decisions issued by the Director of the Bureau of War Risk Insurance with the approval of the Secretary of the Treasury provides more liberal conditions for reinstatement of lapsed or cancelled insurance.

The provisions of Treasury Decision No. 47, allowing eighteen months from the date of discharge for reinstatement upon payment of only two months' premiums on the amount of insurance to be reinstated, are retained. That decision is liberalized, however, by a new provision that men out of the service are permitted to reinstate by merely paying the two months' premiums without making a statement as to health at any time within three calendar months following the month of discharge.

After the three months following the date of discharge have elapsed, a statement from the applicant to the effect that he is in as good health as at the date of discharge or at the expiration of the grace period, whichever is the later date, will be required together with a written application for reinstatement and the tender of two months' premiums on the amount of insurance he wishes to reinstate.

In order to give all former service men whose insurance has lapsed or been cancelled, a fair chance to reinstate their insurance, including men who have been out of the service eighteen months or more, and who are therefore barred from reinstatement under the former ruling, a special blanket ruling is made which allows all ex-service men to reinstate their insurance before December 31, 1919, provided that each applicant is in as good health as at date of discharge or at expiration of the grace period, whichever is the later date, and so states in his application. Of course it is necessary that he tender the two months' premiums on the amount of insurance he wishes to reinstate.

Service men who reinstated their insurance by payment of all back premiums prior to July 25, 1919, when the decision requiring payment of only two months' premiums went into effect, upon written application to the Bureau may have any premiums paid in excess of two applied toward the payment of future premiums. For example, if after a policy had lapsed for six months, a man

SHIPERS ADVISED OF NEW STANDARDS

Express Shipments Over 25 Pounds
Must be Packed in Containers
After Dec. 10

PAPER BOXES ARE TABOOED.

Requirements are not Complicated
Because They Follow Those of
Freight Service

J. A. Bruner, local agent of the American Railway Express company has sent circulars to local shippers calling attention to the changes in shipping regulations which will become effective December 10. He is advising express shippers to study the new rules, which have been approved by the United States railway administration, so that they may be able to adjust their packing methods for the forthcoming new standards.

Under the new regulations, which are embodied in what is known technically as Supplement No. 5 to Express Classification No. 26, all shipments sent by express weighing over 25 pounds, must be packed in wooden containers, or cartons of fibreboard, pulpboard, or corrugated strawboard material, or specified "test strengths". This means, according to Agent Bruner, that after December 10, packages over the 25 pound limit will not be accepted for forwarding by the American Railway Express Company, handling the express business of the entire country as agent of the railroad administration, if only paper wrapped. Nor will ordinary paper boxes, wrapped or unwrapped, be accepted as suitable protection for their heavier shipments. The regulations however, do not affect shipments under 25 pounds.

Regular shippers, Agent Bruner stated today, will not be mystified by the new regulations, as they follow very closely the packing requirements long in vogue in the freight service. The express regulations, however, allow a little more latitude in the size of carton used. The enforcement of the new rules was postponed until December 10, so that shippers would have plenty of time to prepare themselves for this change in express packing standards.

Agent Bruner expressed the opinion that these new rules will not work any hardship on shippers, but should operate distinctly in their interest, as the rules will provide additional safeguards for merchandise in transit. Moreover they will establish a uniformity of express packing rules which heretofore has been lacking. The new order does not affect the movement of food products by express, which are ordinarily shipped in crates or barrels.

Agent Bruner is able to supply

Rush county owners of Second Liberty loan bonds were collecting their interest today. The last coupon on the bond was taken up when the interest was collected and in order to get the remainder of the coupons for interest, the owner must surrender the bond to the bank and accept a certificate as a receipt. The bond is then sent to Washington and exchanged for a bond with the proper number of coupons. It is said the bonds were printed with only a few coupons because the government printing office was swamped during the war.

RUSHVILLE WINS THE NEXT MEETING

Spring Session of Woman's Baptist
Missionary Conference Comes
to This City.

FALL MEET AT SHELBYVILLE

One Hundred Delegates From 26
Churches in Flatrock Association
at Session.

Rushville was decided upon as the next meeting place for the Woman's Baptist Missionary conference of the Flatrock association, which was held yesterday in Shelbyville, with several local women in attendance. The association consists of the churches located in Bartholomew, Rush, Wayne, Fayette, Decatur and Shelby counties and hold sessions twice a year, in the spring and fall. The morning program yesterday was enjoyed immensely by the ladies and at the noon hour a bountiful basket dinner was served. No business meeting for the election of officers was held as officers were installed early last spring.

Mrs. Laura Pryor of Waldron, president of the conference, had charge of the programs. Mrs. W. A. Pavy of Greensburg gave the devotional at Friday morning's session and the welcome was extended the delegates by Mrs. David Smith of Shelbyville. The response was given by Mrs. C. J. Bunnell of Rushville. Three reports were given at the morning session by the secretary-treasurer, home director and report of foreign and literature secretaries. Musical numbers of the morning program were an organ voluntary by Miss Helen McCabe and a vocal solo by Mrs. Cecil Mount, both of Shelbyville. Miss Della Dearborn addressed the delegates preceding the basket dinner.

Prominent on the afternoon program were a duet by Mrs. H. N. Spear and Mrs. Morris Sleth and a violin solo by Miss Aletha VanNamee of Shelbyville. The Rev. Mr. Walfred Lindstrom, who is conducting the revival services at the church in Shelbyville addressed the assemblage.

One hundred delegates attended the Shelbyville meeting and twenty-six churches in the association were represented.

DRASTIC ORDERS TO CONSERVE COAL

Public Service Commission Issues
Ruling Today Restricting Use
of Electricity

LIGHTLESS NIGHTS ORDER

Water Pressure Must Be Reduced
Except in Case of Fire—Display
Lighting Curtailed

(By United Press.)

Indianapolis, Ind., Nov. 15.—Drastic orders to curtail the use of coal was issued by the public service commission today.

They include the immediate discontinuance of the use of gas and electricity in windows and display lighting.

Lightless nights, except when moonless and on cloudy nights.

Curtailement of traction service to absolute necessity.

Lowering hearing standard of water-furnishing companies to 5 degrees.

Discontinuance of the water supply to fountains and other displays. Reduction of water pressure except in the case of fire.

According to the order, gas companies shall limit the use of gas to cooking, lights, domestic water heating and industrial uses.

Curtailement of service shall be governed by the general principals that in the order named the most important are:

Service involving public health; service involving public safety; service involving living necessities; service involving economic production; service involving public convenience.

"Each utility to a measure must interpret and decide upon its relation to the community served," the order says. "But it is ordered that whenever the utilities have only two weeks of supply of fuel on hand it shall discontinue furnishing the product to the patrons coming under four and five and shall show the report to the commission."

"As a result of the production of the bituminous coal being virtually stopped and the improbability of resuming of coal mines in the immediate future, the state of Indiana is rapidly approaching a coal famine which will impair public health and safety," a statement accompanying the order said.

CANVASSERS WILL WORK ON SUNDAY

Unfinished Rushville Districts Will
Likely be Solicited in Red Cross
Campaign

MEMBERSHIP TODAY IS 1400

The Red Cross membership in Rush county for 1920 stood at approximately 1400 today and the campaign is supposed to close tomorrow, all of which means that considerable work had to be done, in the opinion of Roll Call officials, to make the membership five thousand, and the goal which it is hoped will be realized.

One more Rushville district has been canvassed, according to reports received at headquarters, but there are still many which have never been covered by the workers. A number of solicitors have promised to canvass their territory tomorrow and report Sunday.

The fact was mentioned yesterday that no report had been received from Walker township, but it develops that 168 members were reported from the east half of the township last Tuesday and had been overlooked at headquarters, in making a report for publication.

D'ANNUNZIO IN NEW ADVENTURE

Italian Post Accompanied by 1200 Men Lands at Zara on The Dalmatian Coast

JOINED BY ITALIAN SHIPS

Officials Connected With D'Annunzio Says He Intends to Make Raids in Dalmatia.

(By United Press.)
Washington, Nov. 15.—Gabriele D'Annunzio accompanied by staff officers and a force of 1200 men, has left Fiume and landed at Zara on the Dalmatian coast, the state department announced today. The news reached the state department today from Trieste. D'Annunzio went aboard a destroyer with his staff while 1200 troops boarded where they landed yesterday morning.

The Italian ships which were stationed at Fiume joined D'Annunzio's party.

Persons arriving at Trieste say there was great excitement in that city and that officials connected with D'Annunzio state they intend making raids throughout Dalmatia.

The population of Zara is said to have received D'Annunzio with great evidence of enthusiasm and his party was reinforced by some regular troops.

Reports from Italian newspapers in Trieste do not view the new D'Annunzio adventure with much sympathy.

FRENCH GOV'T TRIES TO REDUCE THE H.C.L.

Selling Enormous Quantities of Military Supplies at Figures Generous to France

DOING BETTER THAN THE U. S.

Washington, Nov. 15.—At a time when Attorney General Palmer and high officials of the Administration are having much to say about the effort they are making to reduce the high cost of living, it appears the French Government is taking practical steps to reduce the cost of living there by selling enormous quantities of military supplies purchased from this Government at figures, which to say the least were generous to France.

Paris cables say that sales of these stocks which were bought from our war department have been opened in a dozen leading French cities including Paris and that the purpose is to fight the high cost of living. The French Government is selling the foodstuffs and other goods at not to exceed half the usual retail prices.

AGREEMENT MADE IN WAGE DISPUTE

Continued from Page One
fect any agreement reached by the conference might have in those fields where the miners do not have contracts with the operators. Although officers of the United Mine Workers refused to make any statement following their meeting, it was learned that the plan for a nation-wide conference was favored, but before any proposal was agreed to, Secretary Wilson would be asked to make clear to the conference that the rights of organized labor are to be protected in those districts where the mining unions are not recognized by the coal companies.

The operators, however, did not look with favor on an agreement covering all fields. The Washington wage agreement for the first time, the operators asserted, fixed the same date for the expiration of contracts between miners and operators, in all parts of the country. Fear of the power this arrangement might give the workers to bring about a nation-wide strike was expressed by the operators, who indicated a desire to return to the old plan of basing all wage scale contracts on the agreement reached in the central competitive fields.

Owners of mines outside of the central competitive fields conferred before the opening of the conference, and opposition was expressed to participate in the negotiations.

Owing to the likelihood of protracted discussion on the scope of the conference before even the demands of the miners were brought into issue, many on both sides predicted that the sessions might continue for several weeks.

4 ILL OF PTOMAINE POISON AT MANILLA

Prof. and Mrs. Vernon and Two Others are Recovering From Effects of Poisoning

ATE GOV'T CANNED FOOD

Prof. and Mrs. Vernon, of Manilla, are in a serious condition, suffering from ptomaine poisoning, resulting from eating canned food purchased from the government. Two of Prof. Vernon's brothers were also present for supper Thursday evening and are also suffering from the poisoning.

Shortly after eating supper the four became critically ill and Dr. Emerson Barnum, of Manilla, was called and remained at their bedside throughout the night. Today they were reported as better and it is thought that all will soon recover. Prof. Vernon is principal of the Manilla high school.

This is the first time ptomaine poisoning has resulted from the large amount of government foods purchased here some time ago. It is thought that the food eaten Thursday evening, which caused the poisoning of the four, had become exposed to the air before it was served.

—Miss Agnes Hodgins of Indianapolis will be the guest of Miss Henrietta Coleman over Sunday.

BASKETBALL TEAM TO USE PROCEEDS

Freeman Hammond Co. Will Give Concert at New Salem Auditorium Tuesday Night

NOT ON THE LYCEUM COURSE

The Freeman Hammond company, an attraction of unusual merit, will appear for a concert in the auditorium of the New Salem school on Tuesday evening. The proceeds from the evening will go to the basketball team of the New Salem high school, which will use the money for purchasing new uniforms.

The attraction has an unusual appeal and many original features. Mr. Hammond has made for himself splendid reputation during the past few seasons. Those who have seen his fine characterizations could hardly imagine that so young a man could depict life so faithfully. He has a number of new sketches and characterizations and with other members of the company will produce a little playlet.

Miss Bessie Banks is an actress and tells wonderful child stories, while her cornet solos are said to be delightful. The soprano, Miss Phelps, has a voice of good range and power, and a most delightful manner of presenting her songs. She acts her part in the playlet with a charm and distinction.

The entertainment is from the same lyceum bureau which provides the winter course, but should not be confused as a regular number of the course. The tickets issued for the winter course will not be accepted, as this is a special attraction and the money taken in will be used by the basketball team.

SCHOOL CHILDREN ALL GET PHYSICAL TESTS

Examinations May be Completed Next Week and Cards Showing Defects Sent to Parents

CHILDREN'S BOARD TO HELP

The physical examination of school children, which is being conducted by Dr. Lowell M. Green and the visiting nurse, Miss Ruth Gronier, and three assistants, will probably be completed next week. Forty-three were given the tests at the Graham Annex yesterday morning and two more days will be required to complete the examinations at this building. The Havens school children have already been examined and the last building to be visited will be the Jackson school.

Dr. Green is finding surprisingly few serious defects among the children, though it is common to find minor ones which need correction, the most common of which is lack of a good smallpox vaccination scar.

Each child's examination is marked up on a card which is sent to the parents. Where the parents are not financially able to give the child the proper treatment, the county children's board of guardians will attempt to do it with funds which they have for that purpose. This fund is being increased by the Tri Kappa sorority which is conducting a sacrifice; club for defective children.

Dr. Green and Miss Gronier are being assisted by Miss Charlotte Norris, Miss Teco Holden and T. M. Green.

Timely Service to Nation

One noticeable feature of the editorial columns of the past week has been a decided tendency to cast the fillings of the national administration upon the screen of publicity. More than once disruptive, socialist leanings have been imputed to certain of those high in the government councils and the Lancaster (Pa.) Daily New Era becomes specific when it says:

"For several months past the Federal Trade Commission has been flooding the country with sensational startling and alarming reports about the operations of the meat packers. But it also appears that, while the Federal Trade Commission was investigating the packers, Senator Watson was investigating the Federal Trade Commission, and he has given the result of his investigation to the Senate. Now we are not surprised at the character of the reports on the packers. The Trade Commission is a nest of anarchists, of the most extreme and radical Socialists, of pro-German agitators and propagandists, of admirers of Lenin and Trotsky, of bitter opponents of democracy and the American government of revolutionists and avowed exponents and advocates of Bolshevism."

Also commenting upon the charges recently made by Senator Watson, the Ogden (Utah) Examiner believes that these charges are "worthy of the deepest investigation," and says:

"The senator cited several of these Socialists of radical type, including Stuart Chase, who had general charge of the packers' investigation according to Watson. The senator says that he is known as an exponent of socialism and that he is president and organizer of the Fabian club of Chicago a 'society' founded for the express purpose of furthering the doctrine of socialism. The Examiner adds: 'Another prominent man of the department forces might have been cited for Prof. Herron, who has been variously honored in recent months, is an exponent of socialism and has been considered of most radical type.'"

The Chicago Daily Tribune sees in the Watson expose a subject which is deserving of deep thought upon the part of the American people. It declares that "the internationalism of the administration has attacked our historic foreign policies and tradition." "The history of the trade commission," it says, "is significant of the tendency of the administration," and, in an editorial headed "Revolutionists Representing the Government," states that "Senator Watson has done the nation a most timely service by undertaking an inquiry into the employment of revolutionary radicals in the public

We Have Confidence

All the world knows that America is in a chaotic condition, but not all of the world believes that America has the brains, the will and the determination to bring sanity out of bedlam.

We, however, have confidence that such will be the final outcome of the present era of brimstone and brutality.

We believe the government at Washington and the congress of chosen representatives of the people, will arise to the patriotic heights necessary to restore order and fairness and justice throughout this land of a self governed people.

We believe that the great mass of loyal and unswerving support which is necessary in this hour of national government and the congress that the American people will give to the travail.

We believe that every true American will exert his utmost to restore our country to that condition of tranquility which prevailed before this wave of agitation and unrest and profiteering engulfed us.

Regardless of the present deplorable conditions, we have confidence in America and American institutions.

An Italian count, lately defunct, bequeathed \$10,000 to the city of Providence, R. I., the interest on which is to be presented by the mayor each year to the young lady "of the common people" who most deserves it as a reward for her "conduct and family virtues". He was some count, we think—but will the maidens of Providence admit that they are "common people" in return for the paltry sum of \$600 per annum? Watch the grand rush!

American millionaires make their money in this country and blow it in over in Europe. European aristocrats pauperize themselves at home and marry American money to recuperate. The pauper gets something for nothing, and the plutocrat gets nothing for something.

Having saved Europe from itself, America will again come to the front and save it from starvation. They always come to the fellow who has and is willing to give.

Booze is nozing around at \$40.00 a gallon with millions of seekers and mighty few finders. Some lid, that!

Take life as it comes and keep moving. It will not hustle for you.

URGES PEOPLE TO FIGHT CATARRH WITH SIMPLE HOME MADE REMEDY

Can Make Flat at Home and Costs Little, Says Leading
Druggist of Covington, Ky., Who Has Made
Special Study of Catarrh.

Says: Inflamed Nostrils Invite Influenza

People who say that catarrh is a disease not to be taken seriously are harshly rebuked by a Kentucky druggist who has for years been much interested in the growth of this loathsome, yet altogether too common disease.

He claims that the sore, tender, inflamed membrane of the nostrils and throat is a prolific breeding ground for germs—not only the germs of influenza, but many other kinds as well.

If people would only stop experimenting for two weeks and try a simple remedy made of Mentholized Arceine mixed with enough boiled water to make a full pint, half of the catarrh in this country would be abolished. It's really no joke for people

who don't know about this simple recipe to be constantly sniffing and snuffing, blowing and hawking, when all these obnoxious symptoms as well as the foul discharge can be made to disappear in a few days.

Ask for three-quarters of an ounce of Mentholized Arceine—that's all you need and after you have mixed it with enough boiled water to make a pint, gargle the throat twice daily and snuff or spray some up the nostrils, as directed.

The tender nostrils will soon lose their soreness, heal up, and be clean and healthy.

Important Reminder: Just as soon as anyone in the family gets a cold in the head, check it at once with this same medicine.

Often times people living in this or adjacent counties have clothing and other articles which are in need of dry cleaning service. Parcel post brings the establishment of the Twentieth Century Cleaners and Pressers to the door of everyone. Their mail order business has grown wonderfully in the last year, and the same satisfaction is guaranteed to out-of-town people, just the same as those who are served in Rushville. Mail your packages, and we deliver free. Instruct us what is to be done, and we can do it. **ODORLESS DRY CLEANING IS OUR SPECIALTY.**

FURS

Skunks, Opossums, Mink and Muskrats. Double prices this year. I make a specialty of Indiana furs and guarantee you more for your furs than the St. Louis or New York market will allow you. I want dealers in all towns, and will call personally on all new shippers. What is your name and address? It is very important that I have your name on my mailing list. You then will receive market reports weekly, not monthly.

RUSHVILLE HIGH LOSES TWO GAMES

Spiceland Academy Runs Away With
Local Quintet, 23 to 13, Excel-
ling in Basket Shooting

R. H. S. MEN "LOSE THEIR EYE"

At Least Forty Shots For Field
Goals Are Failures—Seconds
Are Also Defeated

The Rushville high school lost both games last night to the Spiceland Academy, the second team losing by the score of 22 to 12, and the first team by the score of 23 to 13. The second team was outclassed but the first team was unable to locate the inside of the basket, after showing excellent floor work and making many long shots which would only roll around the basket and fall off.

Spiceland started in the game by scoring in the first minute, and soon had nine points before the locals had any. Then the locals held them in the first half with the nine point lead, and brought in five points for themselves, making the score at the end of the first half, 9 to 5.

It could easily be seen that Rushville displayed the best team work, as they had the ball in their possession much more than Spiceland. Rushville had about 40 shots at the goal, but was unable to put the ball through the net. The Spiceland five were good goal shooters and made several baskets which looked impossible.

It is also generally conceded that the local team played out of luck last night, as the ball would hit the rim of the basket, or roll around the top, only to fall on the outside instead of the inside.

Headlee and Atkins played their usual fast game, and Miller added much pep to the team, making one sensational shot soon after the opening of the second half. Frazee, as back guard, was always there when it came to stopping plays, and the weakest place on the team last night was the other forward, Moore, who at no time in the game showed any form and was a disappointment to the fans. The coach was censured by the fans for not putting a substitute in to replace him.

However, before the close of the game Gray was put in for Moore, and soon made a field goal. Headlee made several good shots, and one in particular was from the middle of the floor. All of the points scored by Rushville last night were well earned. The point getters for Spiceland were Pearson, at forward and Reece at center. In the last half Pearson got three goals in quick succession, and also in this period of the game Reece lauded three goals. The Spiceland team were much heavier than Rushville, and taller, but played a good clean game, and were by far the best team that has played here this year. No doubt but that they have a good chance again this year at winning the district honors at Newcastle.

Every team is bound to have a few nights off form, and last night it was Rushville's turn. In two weeks the locals will play at Spiceland, and perhaps then the luck will be changed and a different score, with the big points on the Rushville side, will prevail.

Not much difficulty is expected in the game next Friday night, when Moscow plays here. However if the hoodoo is still on the locals, Moscow might win the game.

The score and summary:

| | |
|---------------------------|----------------|
| Rushville (13) | Spiceland (23) |
| Miller ----- F ----- | Pearson |
| Moore, Gray ----- F ----- | Myers |
| Headlee ----- C ----- | Reece |
| Atkins ----- G ----- | Stafford, Poor |
| Frazee ----- G ----- | Chew |

Field goals, Miller, Gray, Headlee 3, Atkins, Pearson 4, Myers, Reece 4, Chew: foul goals—Atkins, Reece 3.

Spiceland 22; Rushville 12

The second team from the local high school suffered their first defeat of the season last night when the second team from Spiceland overwhelmed them in the last half and piled up a score of 22 to 12. In the first half the local team maintained the lead by the score of 11 to 7, and in the final period, Spiceland

W. W. Wilcox Discusses Case in
Which State Supreme Court
Went Against Him

CONTROVERSY OVER ONE CENT

W. W. Wilcox of this city, though the supreme court decided against him, believes that he was right in refusing to pay E. O. Arbuckle of this city, I. & C. conductor, one cent when the conductor demanded it as the difference between the cash fare and ticket fare, which he paid for part of the way to Indianapolis.

Mr. Wilcox, who then lived at Gwynneville, explains his side of the story this way. There being no agent at Gwynneville and he having always understood that passengers should buy tickets wherever possible, Mr. Wilcox says that on the day in question he called the ticket agent at Morristown and asked him to have a ticket to Indianapolis ready for him when a certain car reached the station. Mr. Wilcox declares that he paid cash fare from Gwynneville to Morristown, bought his ticket there and gave it to the conductor for the remainder of the trip to Indianapolis. It was then that Conductor Arbuckle demanded another cent, which Mr. Wilcox refused to pay and was put off the car. He filed a charge of assault and battery against the conductor and won in a justice of peace court and in circuit court at Shelbyville, but the state supreme court went against him.

land held them to only one point, which was made ten seconds before the whistle blew.

The score and summary of this game was as follows:

LICENSE BOOK ALL USED

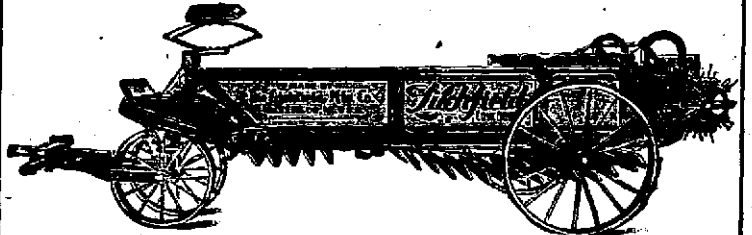

First Marriage Application Issued
From It Jan. 8, 1916

A marriage license was issued yesterday afternoon to Donald Ruby and Beatrice Hunt, daughter of Mr. and Mrs. Elmer Hunt of this county. This was the last license on the book and a new record book today was placed in the office. The old book contained over 530 licenses, and was begun Jan. 8, 1916, when the first license was issued from it. The new book has no variations in it, but the type is smaller in some places, and contains 530 blank applications. At the rate they have been selling in the last few weeks, the new book won't last long, according to Otto Moore, deputy clerk.

GUARANTEE

WHAT IT MEANS

The lawful meaning of the word "guarantee" is this: The guarantor and the person receiving the guarantee become parties to a contract. The third party to this contract is the article guaranteed. When the Spreader is guaranteed for five years against all flaws and defects, etc., in workmanship or material or construction, this MEANS something and becomes a real PART of this modern machine.

Our guarantee is issued on a special form provided by the factory and goes to the factory for official signature and to be made a record of. This is REAL protection.

I don't want to sell you the "RUSHVILLE SPECIAL" Spreader because of the guarantee alone, but this guarantee should show you that you are protected and that the builders know what they can do and are prepared to do it.

The reason the "RUSHVILLE SPECIAL" Spreader can be guaranteed in this manner is because of the style of general construction and because the factory that builds it makes every part and piece that goes into it. This factory is not an assembling institution, but a real manufacturing plant.

We want to again emphasize the fact that this spreader is selling as cheap and perhaps more cheaply today than it will be in many, many months to come. Don't therefore, delay your purchase. Buy it now—immediately. Take advantage of what it can do for you. Don't put off this good thing. It won't pay. Come in and see the "RUSHVILLE SPECIAL" Spreader.

Miss Henrietta Coleman will entertain with a luncheon-breakfast tomorrow morning at her home in East Sixth street for her house guest, Miss Agnes Hodgkin of Indianapolis.

Miss Helen Seudder will entertain with a dinner party this evening complimentary to Miss Frances Frazee and Jay Drum of Miles City, Montana, whose marriage will take place next week.

The W. W. club met at the home of Miss Louise Pitman last evening, Miss Beatty of the high school faculty being one of the guests. A six o'clock dinner was served and the guests formed a theater party afterwards.

There will be a pitch-in supper Thursday evening, Nov. 20 at the I. O. O. F. hall to which all Rebekahs and their families are invited. All are urged to take their baskets well filled. Supper will be served as near seven o'clock as possible.

The members of the P. A. C. club of Falmouth delightfully surprised Mrs. Fred Posey, a recent bride, Thursday afternoon at the home of her parents, Mr. and Mrs. J. M. McConnell in Falmouth. After an afternoon over various kinds of needlework, a delicious luncheon was served to those present.

Mrs. Ida Shortridge and daughter, Miss Stella entertained yesterday at a prettily appointed course dinner party the following guests: Mrs. Henry Knotts and daughter, Miss Bessie, Mrs. Nora Stuckey, Mrs. Minnie Gwinnup and Mrs. Dora of Glenwood. The center of the table was beautifully decorated with a large bouquet of chrysanthemums.

Mr. and Mrs. Ed Moore entertained with a beautiful two course six o'clock dinner last evening at their home south of the city, honoring Mr. and Mrs. Loren Martin, who were recently married. Green and pink was the color scheme used in the decorations of the table, a large bouquet of pink chrysanthemums forming the center piece for the table. Covers were laid for twelve guests. The remainder of the evening was spent with cards and dancing.

Last evening Mr. and Mrs. Wilbur Piper of Fairview entertained a number of their friends with a seven o'clock dinner party. The centerpiece for the table was a bouquet of fall flowers and covers were laid for Mr. and Mrs. Robert Longfellow, Forrest Jones, Mr. and Mrs. Walter

Heeb and daughter Elsie, Mr. and Mrs. John Smelser and son Glen, Miss Eva Bowles, Mr. and Mrs. J. M. Hittle and son Fred, Mr. and Mrs. William Jackson, Dr. and Mrs. Herman Smelser of Connersville, and Mr. and Mrs. George Pounce of Raleigh. After the repast the evening was enjoyed with games, contests and music.

Miss Mabel Hankins entertained with a miscellaneous shower last evening at her home in West Second street, honoring Mr. and Mrs. George Ruble, who were recently married. Mrs. Ruble was formerly Miss Sarah Gibbs. The guests present were Mr. and Mrs. L. C. Sharp and family, Mr. and Mrs. A. Trennepohl, Mrs. E. Trennepohl, Mr. and Mrs. E. J. Hankins and family, Mrs. Gusta Gibbs and sons, Mr. and Mrs. George Ruble, the Misses Edythe Osborn, Dorothy Matlock, Mildred Madden, Naomi Shaw, Geraldine Rainey, Mary Enos, Frances Flodder, Carrie Alexander, Alinene Shaw, Flora Bell Gilson, Howard Higgs and Paul Tyler. Refreshments were served late in the evening by the hostess.

A beautiful four course luncheon and shower was given at the home of Miss Mary Jane Carr in North Perkins street last evening, honoring Miss Ruth Inis and Miss Frances Frazee, bride-elects. The centerpiece for the table was a French basket of all flowers and at each end was a miniature bride, which marked the places for the honored guests. The cards, which marked the places for twenty guests, and the ice cream were in the form of wedding slippers. At the close of the luncheon a large basket was brought into the dining room filled with presents for both Miss Frazee and Miss Inis. Mrs. George Dehority of Elwood was the only out-of-town guest present.

**Biography Of
A Sweaterette**

By MARGARET RHODE
(Written for United Press.)
Sweet in her sweaterette—
Is Sue today,
Jack Frost can't get her yet
—Don Capid may.

New York, Nov. 15.—When is a sweater not a sweater? The answer is the same as the query "when is a scarf not a scarf?" Of course everybody knows that that is when it is a sweaterette and there you are rather there it is. It's all beautifully clear and simple provided you know just what a sweaterette is, but that's a long story—in fact quite a sentimental romance.

You see last season when sweaters were beginning to get a bit passe from long and constant wear and were trying all sorts of things to keep themselves smart and up-to-date such as resorting to rippy ruffles around their waists and elbow sleeves and reducing themselves to mere skeletons of flit mesh a dashing young Scotch scarf just back from overseas with a military flyer fell desperately in love with a fluffy pink and white Iceland wool sweater and proposed matrimony.

Realizing that her career as a pampered pet of fashion was becoming a bit precarious and that Hymen and the Scotch scarf offered a comfortable and happy solution, she pinkly cooed she was willing, only of course she pronounced it "woolen," and fell into his soft embrace. They were married next day and in the due course of events they had the darlingest little garment you ever saw. It had its father's long graceful scarflike lines

CATTLE TREATING ADVISED

Many Contract Hemorrhagic Septicemia, it is Reported.

At this time of the year a great many cattle are being shipped from the yards for feeding purposes. Many of these animals contract hemorrhagic septicemia, stock yard disease, or shipping fever as the disease is probably better known. L. E. Northrup, state veterinarian, is advising that cattle bought from the yards be treated for this disease immediately on arrival at the farm. The treatment is inexpensive, quite reliable, and may save heavy losses. He regards the treatment as quite cheap insurance, according to a letter sent out to feeders recently.

PROFITEERS CONVICTED

New York, Nov. 15.—The first sugar profiteering conviction in this federal district was obtained yesterday. Julius and Charles Roth, commission merchants, were found guilty by a jury of selling at 23½ cents a pound sugar bought at 9½ cents a pound.

BELIEVED NITTI WILL BE ELECTED

Predicted Government Will Secure Majority at General Election Held Tomorrow in Italy.

VOTE BY NEW ELECTION LAWS

One Man, One Vote, is Rule in Italy and no Candidate May Stand for 2 Constituencies

Rome, Nov. 15—While Premier Nitti continues to be subjected to some of the most virulent personal attacks in Italian political history, it is confidently predicted by his supporters that the government will secure a substantial majority at the general elections held tomorrow all over Italy.

The cynics point out Nitti is in power, and that no Italian government in power while an election was held has been defeated at the polls since 1918. If he is defeated, they say, it will be his own fault for tinkering with the electoral law.

For Italy will vote under Nitti's new election law, which is aimed at reducing the power of the political wirepullers and giving the people an extended and more equal franchise. Although woman suffrage was adopted by the last chamber, women will not vote this time as the new law specifically postpones their participation in elections until the next dissolution of parliament, but the dissolution will be considerably enlarged, for in addition to granting the vote to all Italians over 21 years of age (except soldiers actually under arms) there is a special provision extending the franchise on this occasion to all citizens who have performed service in the army or navy, regardless of the age limit.

There are still 508 deputies to be elected, as the redeemed provinces are not entitled to representation until the ratification of the treaties with Germany and Austria permits the formal decree of annexation. Later there may be a special election for their benefit after their representation strength has been determined. The constituencies have been

re-arranged and enlarged. Instead of 135 electoral districts as provided for by the law of 1882, there will be fifty-four—for the same number of deputies. Of these Milan is the largest, returning 20 deputies. Turin and the Emilia districts have 19 each; Genoa and Naples 17; Rome (which only had five under the old law) 15; Florence 14.

Alessandria and Caserta 13; (Giulini's constituency) Novara, Udine, Bari and Palermo, 12 apiece; Como and Campobasso, 11; and Siena, Perugia (Salerno, Lecce, Potenza Nitti's constituency) and Catania 10 each. The smallest districts are Mantua, Cremona, Teramo, Caltanissetta, Trapani, and Sassari in Sardinia, with five members each.

One man, one vote, is the rule in Italy, and no candidate may stand for two constituencies—if elected in two he must decide for which he desires to sit within eight days of the Chamber declaring his election valid. The minimum age for a deputy is 30, although Signor Salandra introduced a resolution which the last Chamber was unable to deal with before the dissolution, making the limit 25.

Political experts declare that the principal ones to benefit from the new system will be the extreme parties, the Catholics or clericals in the agricultural south and the socialists in the industrial north, both of which are highly organized. The old liberals are expected to lose ground, while the young nationalist or imperialist party which had only three or four deputies in the old chamber will doubtless increase its representation.

Fiume continues to be almost the main battleground.

Big Alaskan Romance

J. Warren Kerrigan's third picture for Jesse B. Hampton, "The Drifters," comes to the Mystic Theatre on today. It is the story of three men whose circumstances force to be partners in a small cabin snowbound for the winter just under the arctic circle.

Kerrigan plays the role of Burke Marston, a man striving to forget

What we have to say about The New Edison

Those who wait until the holiday rush starts will have to take whatever models are left. Though the NEW EDISONS are scarce and our ability to get shipments from the factory is far behind last year's, we will put one in your home at once on very liberal terms. It is becoming increasingly difficult to get certain models at this time, and if you are contemplating using your XMAS SAVING for one of these instruments we will be glad to accommodate you with the instrument at once, or select what you want for later delivery.

and seeking freedom from memory in brandy. His companions are Mears and McLaren, one hiding from the law and the other, bothered neither by past or present seeks honestly won gold in the rich Alaskan fields.

Into this winter-bound region comes a girl. A great sorrow has robbed the girl of her mind, but must have been some large purpose that has carried her mindless body through the winter snows. How she remembers who was seeking and finds him one of the three drifters, and how the man seeking to forget is given something to remember make of "The Drifters," an original story by Kenneth B. Clark, an absorbing and unusual romance.

Lois Wilson, without whom no Kerrigan picture is complete, is very sympathetic in the role of the girl. Casson Ferguson in a jolly juvenile. William Conklin is as mean as any villain should be, and Walter Perry gives one of those character portrayals he is famous for, while Kerrigan's role is both sympathetic and vigorous.

James J. Corbett will be at the Mystic Monday in "The Elevator Mystery," the sixth episode of the serial, "The Midnight Man." An L-Ko comedy, "Nellie's Naughty Boarder," and Universal current news also will be shown.

Mae Marsh at Princess Tonight

Mae Marsh's circle of admirers will delight in her latest Goldwyn offering, "Hidden Fires," which comes to the Princess Theatre, tonight. The new production brings out many new phases of Miss Marsh's remarkable gifts for the dual role she essays is a distinct departure from anything "the whim girl of the screen" has yet attempted.

The striking resemblance Peggy Murray (Mae Marsh) a hotel newsstand girl, bears to the missing daughter of a woman of wealth leads to Peggy's taking her place in order to restore the health of the grieving mother. The change forces Peggy into a series of complications, the most serious of which is her meeting

with the man who betrayed the missing girl and who comes to Peggy to apologize for casting her off. After months of posing as another the former newsgirl is speechless when she meets the girl in whose place she is masquerading in a hovel in the slums almost dead of a broken heart. Peggy nurses her back to health and sets out to find the man responsible for her plight.

She is rewarded after many days' search and brings him to the bedside of the once beautiful society girl and makes it plain to him that marriage, not apologies, will right the wrong done her. He consents to an immediate wedding and Peggy leaves to take up her old place at the newsstand. Love comes to her, too, when she meets her Prince Charming, a man who loved her while she was a masquerader and whose love she spurned because of the lie she was living.

—Mr. and Mrs. Arthur Wagoner of Shelbyville will be the guests of Miss Helen Scudder this evening.

Remember It

FAT BACK is a high grade hog chuck; IT costs less than any other good swine chuck; IT supplies all of corn's deficiencies; IT is invaluable for brood sows; IT makes strong big pigs with a heavy coat of hair when fed to sows while gestating; the sow keeps in fine health and her milk flow is ample; IT starts the pigs right to large body structure, hurries them along, keeps them healthy, and IT fattens right away if fed alone or with corn when your porkers reach 125 pounds. Fat Back makes firm pork—many feeds don't. Avoid peanut products, rice products, and soy beans in hog feeds.
